# About AfyaZ™

AfyaZ™, a brand by AtoZ Group Ltd, is recognized for delivering reliable, safe, and high-quality medical devices and diagnostic products.

Developed in accordance with international standards, AfyaZ™ products are designed to support healthcare professionals with superior performance and a strong focus on patient safety.

## Product Range

### 1. AfyaZ™ Syringes

AfyaZ™ Syringes are single-use syringes engineered to auto-disable, prevent reuse, thereby enhancing patient safety and supporting effective infection control protocols.

Size	Applications
0.5 ml	Ideal for vaccines & pediatric use
2 ml	Suitable for general injections
5 ml	Commonly used for antibiotics and IV delivery
10 ml	Suitable for antibiotics & general injections

#### Key Features:

- ▶ Sterile, non-toxic, and non-pyrogenic
- ▶ Auto-disable mechanism to prevent reuse
- ▶ Clear barrel with precise graduation for accurate dosage

### 2. AfyaZ™ IV Sets

AfyaZ™ IV Infusion Sets are reliable and high-performance systems designed for the safe and precise administration of intravenous fluids in clinical settings.

#### Key Features:

- ▶ Transparent drip chamber for clear fluid visibility
- ▶ Sharp piercing spike for effortless container access
- ▶ Roller clamp for accurate flow regulation
- ▶ Air vent to suit various infusion requirements

### 3. AfyaZ™ Blood Sets

AfyaZ™ Blood Transfusion Sets are specifically designed to ensure safe, efficient, and hygienic blood transfusions in healthcare environments.

#### Key Features:

- ▶ Drip chamber with integrated micro or macro filter for optimal filtration
- ▶ Latex-free injection ports to reduce allergic reactions
- ▶ Sterile and individually packed for single-use safety

### 4. AfyaZ™ Blood Container Tubes

AfyaZ™ Blood Collection Tubes are high-quality containers designed for the reliable collection, transport, and storage of blood samples in clinical and laboratory settings.

#### Key Features:

- ▶ Secure, leak-proof caps to ensure safe handling
- ▶ Color-coded options for EDTA, plain, heparin, and other additives
- ▶ Available in 3ml volume for standard sampling needs
- ▶ Clear labeling for accurate and easy identification

### 5. AfyaZ™ Specimen Containers (Urine/Stool/Sputum)

AfyaZ™ Specimen Containers are durable and leak-proof, designed for the hygienic and secure collection of clinical specimens in medical and laboratory environments.

#### Key Features:

- ▶ Wide-mouth opening for convenient sample collection
- ▶ Screw-tight lids to prevent leakage and contamination
- ▶ Available in both sterile and non-sterile variants
- ▶ Manufactured from medical-grade polypropylene

## AfyaZ™ Key Features Across All Products

- ▶ Manufactured under stringent quality control systems
- ▶ Compliant with international standards including ISO 13485 and CE
- ▶ Designed to ensure safety, reliability, and clinical effectiveness
- ▶ Sterile, non-toxic, and non-pyrogenic (where applicable)
- ▶ Clear labeling and user-friendly packaging for operational efficiency
- ▶ Custom packaging and bulk supply options available
- ▶ Backed by AtoZ Group Ltd's trusted manufacturing capabilities
